INDEX.

List of sub-headings :—CABLES, CENTRAL STATIONS, CITY NOTES, CONTRACTS OPEN AND CLOSED, CORRESPONDENCE, ELECTRICAL, ELECTRICITY, ELECTRIC LIGHT AND LIGHTING, LEGAL, NEW COMPANIES, OBITUARY, OFFICIAL RETURNS, PERSONAL, RAILWAYS, REVIEWS, SOCIETIES, TELEGRAPH, TELEPHONE, TRACTION, TRAMWAYS.

ACCIDENT, Electric car, in the States, 644
„ Electric light, at Bristol, 391
„ (electric railway) in America, 294
„ Fatal, 678
„ Fatal, at the Arc Works, Chelmsford, 130
„ fatal, at Blackrock Electric Tramway Works, 131
„ Fatal, in a Cheltenham substation, 775
„ fatal, on the Portrush Electric Tramway, 265, 279, 391, 402, 529, 541
„ fatal, Sad, from shock in America, 644
„ Railroad, in Chicago, 19
„ Tramcar, 678,
Accidents, Flywheel, 518, 566, 709
Accounts, Electricity supply, 561
Accumulator factories, Health precautions in, 293
„ New form of, 742
„ plate, New, 743
„ Tudor, 262
Accumulators, Calculations of the weight required for a tramway, 256
„ Charging, from alternating currents, 173
„ (electric), Self-motive carriages and, 224
„ in Germany, 582
„ (lead), Researches on, 265
„ Low resistance "dry," by D. G. Fitzgerald, 161
„ Pritchett, 677
„ Traction by, 133, 291
„ Uses of, by J. S. Webster, 155
Acetylene, 29
„ Calcium carbide and, 187
„ Its true commercial significance, 519
„ Physiological action of, 754
Action against Sir Augustus Harris, 14
„ for nuisance dismissed, 483
„ of acetylene, Physiological, 754
„ of the Boynton multivolt battery, by Wm. A. Anthony, 98
„ for damages, Curious, 631
„ of the electric current on aluminium wires, 242
„ of the electric current on sulphides, 206
„ of the soil on iron poles, pipes and cedar poles, 172
Adams, Geo., on Armature cross-turns in continuous current dynamos, and their effects, 36, 64
„ „ on The choice of transformers, 363
„ „ on The design of transformers, 86, 95, 124
„ „ on the Geometrical form of transformer plates, 787
„ „ on Notes on transformer design, 698
Advancement of science, For the, 107
Advertising by electric cars, 129
Agricultural districts, Development of the telephone in, by Major General Webber, 372
„ operations, Electricity in, 293
Agriculture, Light railways as an assistance to, 365
Air and other gases, Electrification and dis-electrification of, by Lord Kelvin, Magnus McLean, and Alex. Galt, 344
„ brake, The present status of the, 787
„ in which a candle flame has burnt until it is extinguished, The respirability of, by Frank Clowes, D.Sc., 495
Alarm (fire), Pneumatic telegraph system, 238
Alarms (automatic), for level crossings, 73
Alternate current motors, by W. G. Rhodes, M.Sc., 22, 181, 222, 309, 492, 598
„ current, The superiority of, over continuous for incandescent glow lamps, by C. J. Robertson, 394.
„ current wave forms, Some new methods for the delineation of, by J. M. Barr, W. Beckit-Burnie, and C. Rodgers, 378
Alternating circuits, Arc lamps in series on, 238, 267
„ current lighting stations, A suggestion for a day load in, 796
„ current of high frequency and of high tension, The general therapeutic effect of the, 797
„ current supply, 357
„ current work, Notes on Crompton's, 67, 108
„ currents, 338
„ currents, An apparatus for measuring difference of phase between, by Louis Derr, 24
„ currents, Charging accumulators from, 173
„ currents, Electrolysis by, 266
„ motors for pumping purposes, 725
„ *v.* continuous current distribution at Niagara, 518
Alternators, 194
Aluminium, 390
„ alloys, 321
„ companies, Rival, 677
„ Solder for, 265
„ The corrosion of, 266
„ the superabundant metal, 103
„ wires, Action of the electric current on, 242
Amalgamation in the States, Big, 175
American Electro-therapeutical Association, 108, 327
„ Institute of Electrical Engineers, 18
„ Institute of Electrical Engineers, Niagara meeting, 99
„ lighting system, An, 789
„ wire gauge: Approximate formulæ, 645
Analysis of the Tremont turbine, 108
Andreoli, Emile, on Development of the electro-deposition of gold in the Transvaal, 628
Annealing armour plates electrically, 82
„ (Local), of hard-faced armour, 565
Ansell's (Mr.) jubilee, 615, 645
Anthony, Wm. A., on The action of the Boynton multivolt battery, 98
Anticipations, 785
Apparatus for measuring difference of phase between alternating currents, by Louis Derr, 24
Applications (Modern) of electricity to traction purposes, by Philip Dawson, 345
Applications of storage batteries, 790
Appointments, 798
„ vacant, 711, 743
Arc, The true resistance and back E.M.F. of the, by W. E. Ayrton, 767
„ (electric), The counter electromotive force in the, by W. H. Freedman, 230, 253, 301
„ lamp, A double carbon, 174
„ „ A 200 C.P., 517
„ „ The Ross Hepworth projection, 545, 578
„ „ "I. R.," 738
„ lamps, Inverted, in cotton mills, 239
„ „ in series on alternating circuits, 238, 267
„ „ Long burning, 730
„ „ Small, 645
„ „ The "Weinert," 321
Arc light, The, by Silvanus P. Thompson, 538, 571, 618, 653, 682, 716, 749, 780
„ lighting, Economy of constant potential, 222
„ „ The reactance system of, by W. S. Horry, 662
„ the voltaic, Interesting effect observed with the, 210
Archbutt-Deeley water softening process, 793
Arcing, Provision against, 550
Are they electrical? 295
Argon, Smithsonian award for the discovery of, 615
„ Ten thousand dollars for, 174
Armature cross turns in continuous current dynamos, and their effects, by Geo. Adams, 36, 64
Armatures and magnet coils, by Claude W. Hill, 226, 252
„ Location of grounds in, fields, &c., 178
Armour plates, Annealing by electricity, 82
Armstrong, E. J., on A new shaft governor, 72
Armature reaction, Compounding dynamos for, by W. B. Sayers, 257
„ „ Compounding dynamos for, by Elihu Thomson, 273
Arno, Riccardo, on the Use of the Quadrant electrometer as a differential instrument, 181
Artesian wells, Power from, 434
Artificial respiration, 295
Ashantee expedition, 638
Association of Edison Illuminating Companies, 293
Atkinson, L. B., on Distribution of power in collieries, 437
Atmospheric electricity, Conditions of, 109
Atoms, ions and molecules, The colour of, 710
Auditors of electric light companies, 802
Australian electrical news, 38, 148, 157, 272
"Autocar," The, 583
Automatic alarms for level crossings, 73
Average data for incandescent lamps, 709
Averages, Incandescent lamp, 530
Awards, 108
Ayrton & Mather's electrostatic voltmeters, 353
„ Prof. W. E., and T. Mather, on a Portable magnetic field tester, 376
„ Prof. W. E., on the True resistance and back E.M.F. of the arc, 767

BACK E.M.F. of the arc, The true resistance and, by W. E. Ayrton, 767
Bainville, A., on the Incandescence lamp, 146, 221, 380, 590, 806
Barns, Lightning and, 294
Barr, J. M., Beckit-Burnie, W., and Rodgers, C., on Some new methods for the delineation of alternate current wave forms, 378
Bankruptcy proceedings, 14, 45, 104, 169, 194, 281, 354, 385, 455, 483, 512, 577, 638, 705, 738
Batteries, Secondary, 140
„ Storage, Applications of, 790
„ „ by H. A. Earle, 339
„ „ at Niagara, 205
„ „ in office buildings, 743
„ „ for telegraph work, 173
„ „ *v.* gas engines, 753
„ for traction in the States, 547, 707
„ Thermo-chemical, 187
Battersea Polytechnic Institute, 327
Battery, Boynton multivolt, Action of the, by Wm. A. Anthony, 98
„ element, a new, by M. Morisot and M. Lippmann, 415
„ The I.E.S. storage, for lighting and traction, by A. G. New, 27
„ The International electric storage, 30
„ The Milver, 549
„ New light on the Grove, 959
„ The porous Planté storage, 581
„ (Primary), Fallacies, 108
„ The primary craze, 294
„ storage, The Hatch, 742
„ The thermo ozone, 283
Beauty of the Thames Embankment, 126
Beckit-Burnie, W., Barr, J. M., and Rodgers, C., on Some new methods for the delineation of alternate current wave forms, 378
Behaviour of fuse wire, Rating and, by W. M. Stone, H. E. Gates, and C. E. Freeman, 570, 605, 633
Ben Nevis laboratory, lightning effects at, 80
Bennett, A. R., on Municipal telephony, 622, 650, 782, 810
„ „ on Some lessons in telephony, 374
Berlin electric tramway, 567
Bifilar D'Arsonval galvanometer, Crompton's improved, 737
Birmingham Technical Schools, The electric lighting of, 532
Bismuth, The variation in the electrical resistance of, when cooled to the temperature of solid air, by J. A. Fleming and Jas. Dewar, 403, 464
Bleaching teeth, Cataphoresis and solutions of $H_2 O_2$ for, by W. J. Morton, M.D., on, 117
Bleile, A.M., M.D., on Cause of death in electric shock, 111
Block signalling, 404
Board of Trade and electric lighting regulations, 582, 641, 657, 684, 711
„ „ „ and light railways, 581
„ „ „ report *re* Portrush fatality, 529, 541
Boiler cleaning, 802
„ efficiencies, 48
„ explosion (the Redcar) and its influence on gas engine practice, 25
„ explosion, Redcar, 188, 265
„ feed treatment, 219
„ Niclausse water tube, 167
„ (steam) improvements, Some novel, 116
Boilers, Down draught furnace for steam, 788
Boynton multivolt battery, Action of the, by Wm. A. Anthony, 98
Bradley, C. S., on Phasing transformers, 466, 474
Brake pulley, The correct diameter of a, 159
„ strap, Radius of a, 159, 224, 283
Brakes, New forms of friction, by W. F. M. Goss, 98, 125, 158
Branch lines, Electric traction on, 66
Brass, Electro-deposition of, by Frank Sutton, 332, 367, 429
Brazil as a field for electrical engineers, 581
Breach of the Companies Act, 130
Bristol Electric Tramway, 442, 479
„ „ „ The influence of the, 490
British Aluminium Company, 516
British Association addresses, 310, 337
„ „ meeting, The, 382
British Association 1897 meeting, The, 711
„ „ and the practical man, 306
„ „ president indisposed, 327
„ „ Telephones and the, 369
Bruce, E. S., on Probable projection lightning flashes, 408
Brush Electrical Engineering Company, 371
Brushes (carbon) for heavy currents, by G. E. Hartmans, 282
Business references, 295

CABLES—
Amazon, 356, 457
„ expedition, 741
American, proposed to Hawaii, 355
Ashanti expedition for the, 640
Atlantic, 16
Caldy Island, to, 132
Canadian-Australian proposed, 613
Direct Argentine, 132
Fastnet Rock, 170
First Atlantic, 132
French matters, 514, 548
„ submarine, 774
Interruptions, 170
„ and repairs to cables and landlines, 206, 325
Islet of Trinidad as a cable station, 171, 419, 457, 544, 548, 580, 613
Japan-Formosa, 419
Laying gear for a Japanese steamer, 290
More, wanted, 291
New, 17, 291
„ Atlantic, 419, 486
„ Submarine, 205, 325, 679
Pacific, 17, 79, 105, 132, 206, 236, 261, 264, 402, 487, 548, 640, 741
„ The United States of America and, 335
Repair, 105
Shetland to Iceland, Proposed, 774
Ship, New, 679
Station, A prospective, 105
Steamers, French, 486
Submarine, 48
„ Copper sheathing wires for a, 81
„ Signalling through, 153
„ Telegraph, work, Notes on, 114
Surveys, Relation between, geology and, 170
Telegraphic for Japan, 388
Wanted, 79

Cable's Recorder, The, 82, 711
Calcium carbide and acetylene, 187, 804
Calculations of the weight of accumulators required for a tramway, 256
Calorimeter tests, 91
Calorimetry, Coal, 107
Canadian Electricity Supply, 589
„ water-power and electric railway work, 96
Capacity in wire coils, Distributed, 238
„ Station, 530
Car and power house tests, 693
„ conductors, Students as, 517
Carbide, Calcium, 187, 804
Carbon brushes for heavy currents, by G. E. Hartmans, 282
„ Pure, 175
Carbons, Effect of different sizes of, 265
Carborundum plant at Niagara, 595
Carriages, electric road, 501
„ Horseless, 205, 420, 488, 501, 547, 550, 582, 644, 679, 708, 741
„ (Locomotive) for the common roads, 708, 767
„ (Self-motive) and electric accumulators, 224
Cartridge factory, A Russian, 421
Cataphoresis, 109
„ and solutions of $H_2 O_2$ for bleaching teeth, by Wm. J. Morton, M.D., &c., 117
Cause of death in electric shock, by A. M. Bleile, M.D., 118
Cawley, Geo., on A method of electric traction for tramways in towns (Thwaites-Cawley system), 8
Ceiling rose, New, 130
Cell, Electrolytic, New, 803
„ (iodine), E.M.F. of an, 123

CENTRAL STATIONS—
combined electric light and electric railway, Tests of a, by D. C. Jackson, and A. W. Richter, 54, 68
Deptford revisited, 670
destructors, and, 721
Dortmund, Installation expenses for the establishment of, 527
Economies, 218
Edinburgh, 197
Fires in, 2
Nancy, at, 35
Newport, 505
Refuse destructors and, 765
St. Pancras developments, 756
Salford, 728
Shrewsbury, 692
Southport extensions, 555
Stafford, 395, 465
Sunderland, 203
Troubles of, 690
Tunbridge Wells, 470, 516
Windermere, 728
Yarmouth, 40

Change of address, 46, 194, 235, 455, 483, 512, 545, 611, 677, 738
Charges of condensers, Residual, 106
Charging accumulators from alternating currents, 173
Cheap materials, The waste of, 316
„ wiring, 614
Chemistry at a high temperature, Electrical furnaces and, by H. Moissan, 280
Chicago elevated railway, 32
Chip from a true workshop, 270
Chips from a true workshop, More, by Leonard Paget, 414
Chitral field telegraphs, by P. V. Luke, 402, 409
Chlorates and hypo-chlorites by electrolysis, 421
Chloride cell, The tin-chromic, by S. Skinner, M.A., 255
Choice of transformers, by Geo. Adams, 363
Choking coils, Small regulating transformers and, 512
Christie, John, on Electric lighting of Londonderry, 302
Cigar lighter, 104
Circuit measurements, A percentage method for, 516
City & Guilds of London Institute, 136, 389, 420, 490
„ „ of London Institute technological examinations, 82, 299
„ of London Electric Lighting Company, The policy of the, 389

CITY—
African Direct Telegraph Company, 776
Albert Electric Lighting Company, 240
Aluminium Company, 584
Amazon Telegraph Company, 51, 84, 551
Anglo-American Telegraph Company, 84, 110, 142, 460
„ Portuguese Telephone Company, 804
Arcas Plating Company, 144
Babcock and Wilcox, 328
Birmingham Electric Supply Company, 424
Brazilian Submarine Telegraph Company, 490, 520, 550, 712, 744, 804
Brighton and Rottingdean Seashore Electric Tramroad Company, 296
British Electric Traction (Pioneer) Company, 616, 648
„ Steam Generator and Refuse Utilisation Company, 483
Brush Electrical Engineering Company, 240, 360, 391, 776
Cape Town and Suburban Electric Lighting Syndicate, 52
Cassel Gold Extracting Company, 744
Castner-Kellner Alkali Company, 551
Chagford and Devon Electric Light Company, 550
Charing Cross and Strand Electricity Supply Company, 20, 144
Chelsea Electricity Supply Company, 20, 52
Chili Telephone Company, 83, 144
City of London Electric Lighting Company, 20, 84, 112, 392, 520, 648, 680, 712, 776
„ and South London Railway Company, 84, 110, 142
Clermont-Ferrand Electrical Tramways Company, 520
Commercial Cable Company, 296, 712
Continental company notes, 552

CITY NOTES—*continued.*
Cost of electricity in Australia, 143
Crompton & Co., 175, 207
Cuba Submarine Telegraph Company, 112, 143, 175
Derby Corporation Accounts, 268
Direct Spanish Telegraph Company, 360
" United States Cables Company, 52, 112, 144, 424
Eastern Extension Telegraph Company, 52, 424, 520, 551, 744
" and South African Telegraph Company, 520, 552, 648, 712
" Telegraph Company, 84, 109, 520, 776
Edison and Swan United Electric Light Company, 110, 141, 176, 240
Electric and General Investment Company, 20, 744
Electric Construction Company, 296, 328
" Organ Company, 84
" Trust, 289
Electrical Power Storage Company, 176
Electro-Chemical Company, 616, 646, 677
Elmore's Patent Copper Depositing Company, 552, 584
Froggatt's Electric Lighting Company, 424, 520, 776
Globe Telegraph and Trust, 52, 110, 142, 424
Guildford Electricity Supply Company, 208, 744
Gülcher (New) Electric Light and Power Company, 111
Hobart Electric Tramway Company, 804
Hong Kong Electric Company, 208
House-to-House Electric Light Supply Company, 176
Hove Electric Lighting Company, 296, 520
India-rubber, Gutta-percha and Telegraph Works Company, 20
Indo-European Telegraph Company, 552
International Cable Company, 268
Isle of Man Tramways and Electric Power Company, 424
Kingston (Jamaica) Electric Light Company, 712
Liverpool Overhead Electric Railway Company, 176, 208
Manchester Edison-Swan Company, 207
Metropolitan Electric Supply Company, 552, 584, 776
Monte Video Telephone Company. 520, 552
National Telephone Company, 52, 84, 143, 144
Official announcements *re* companies, 175, 392
Parker, Thos., 176
Petroleum Engine Company, 551
Printing Telegraph and Construction Company of the Agence Havre, 112
Rand Central Electrical Works, 144
Reuter's Telegram Company, 424
Rockhampton Gas and Coke Company, 360
Royal Electric Company of Montreal, 360, 680
St. James's and Pall Mall Electric Light Company, 84, 490, 615, 678
Salt Lake and Ogden Gas and Electric Light Company, 460, 490, 804
Scottish House-to-House Electricity Company, 361
Smoke and Fumes Annihilator Company, 194, 360
Southampton Electric Light and Power Company, 53
South Staffordshire Tramways Company, 268
Stock Exchange announcements, 53, 84, 268, 424, 460, 552, 616, 712, 744, 776
Swan United Electric Light Company, 776
Telegraph Construction and Maintenance Company, 84, 112
Telephone Press, Limited, 552
United River Plate Telephone Company, 20, 51
Venezuela Telephone and Electrical Appliances Company, 112
Victoria Electric Railway and Lighting Company, 552, 584, 616
Waterloo and City Railway Company, 207
West African Telegraph Company, 84, 112, 144
" Coast of America Telegraph Company, 804
" India and Panama Telegraph Company, 490, 583, 616
Western and Brazilian Telegraph Company, 551, 583, 616

CITY NOTES—*continued.*
Westinghouse Electric Company, 460
" Electric and Manufacturing Company, 111
Westminster Electric Supply Corporation, 112
Willans and Robinson, 424, 460
Woodhouse and Rawson United, 583
Yorkshire House-to-House Electricity Company, 84
Yost Typewriter Company, 776, 804

Civil Engineer, The, 165
Classes, Electrical Engineering, 420
Clayton air compressors, compressed air, and, 235
Cleat, "Ideal" porcelain, 490
Climbing down, 328
Clowes, Frank, D.Sc., on The respirability of air in which a candle flame has burnt until it is extinguished, 495
Clutch, Magnetic, 130
Coal calorimetry, 107
Coast communication, 16
Colour of atoms, ions, and molecules, 710
Compounding dynamos for armature reaction, by W. B. Sayers, 257
" " by Elihu Thompson, 273
Continuous current dynamos, Armature cross turns in, and their effects, by Geo. Adams, 36, 64
Coal consumption of electric railways in France, 17
" cutting plant, Unique, 172
" gas, Products of the combustion of, from a hygienic point of view, 122
" mines, Electromotors in, 186
" pile to the meter, From the, by Jas. Milne, 499, 549
Coast communication, 132, 186, 193, 206, 239, 251, 285, 548, 774
Coils (field) Discharge of, 803
" (magnet), Armatures and, by Claude W. Hill, 226, 252
Collier improved telephone receiver, 325
Collieries, Distribution of power in, by L. B. Atkinson, 437
Collisions at sea, Prevention of, 421
Combined electric light and electric railway central station, Tests of a, by D. C. Jackson and A. W. Richter, 54
Combustion of coal gas, Products of the, from a hygienic point of view, 122
Commercial Cable Company, 81
" morality, Professional etiquette and, 305
" significance (True) of acetylene, 519
" use of the Niagara power, The first, 358
Companies Act, Breach of the, 130
Compensation for injuries by shock, 511
Competition *v.* undercutting, 580
Concentric wiring, by Sam Mavor, 714, 746
Condensation surfaces, Cylinder, 416
Condensers, Residual charges of, 106
Conditions of atmospheric electricity, 109
Conduit railway system, A new, 504
" system, Electric traction on the, 154
" " The Diatto underground, 535
" " The Horde, 563
Conductivity of metals and electrolytes, 206
Constant potential arc lighting, Economy of, 222
Consulting engineer's lot, A, 489
Contacts, Relay, 775
Continuous current, Alternating *v.*, distribution at Niagara Falls, 518
" " The superiority of alternate over, for incandescent glow lamps, by C. J. Robertson, 394
" rails, 796

CONTRACTS OPEN AND CLOSED—
Aberdeen, 580
Ashton-under-Lyne, 356
